

MySQL Practical Test

Duration: 60 Minutes

Total Marks: 50

Scenario

You are developing a database for a training institute.

Question 1: Create Database (2 Marks)

Create a database named:

CBITSS

Then select the database.

Question 2: Create Students Table (8 Marks)

Create a table named `students` with the following columns:

Column	Data Type	Constraint
student_id	INT	PRIMARY KEY
name	VARCHAR(100)	NOT NULL
email	VARCHAR(100)	UNIQUE
city	VARCHAR(50)	DEFAULT 'Chandigarh'
age	INT	

Question 3: Create Courses Table (5 Marks)

Create a table named `courses`.

Column	Data Type	Constraint
course_id	INT	PRIMARY KEY
course_name	VARCHAR(100)	UNIQUE
fees	INT	

Question 4: Create Enrollments Table (8 Marks)

Create a table named `enrollments`.

Column	Data Type	Constraint
enrollment_id	INT	PRIMARY KEY
student_id	INT	FOREIGN KEY
course_id	INT	FOREIGN KEY
enrollment_date	DATE	

The foreign keys should reference:

- students(student_id)
- courses(course_id)

Question 5: Insert Records (5 Marks)

Insert:

Students

student_id	name	email	city	age
1	Aftab	aftab@gmail.com	Chandigarh	22
2	Paras	paras@gmail.com	Mohali	20
3	Sanket	sanket@gmail.com	Panchkula	21

Courses

course_id	course_name	fees
101	Python	15000

course_id	course_name	fees
102	Data Science	25000

Enrollments

enrollment_id	student_id	course_id	enrollment_date
1	1	101	2026-06-01
2	2	102	2026-06-02

Question 6: SELECT Queries (5 Marks)

Write queries to:

1. Display all students.
2. Display all courses.
3. Display only student names and emails.
4. Display all enrollments.

Question 7: WHERE Clause (5 Marks)

Write queries to:

1. Find students whose age is greater than 20.
2. Find students from Chandigarh.
3. Find courses with fees greater than 20000.
4. Find student whose name is 'Aftab'.

Question 8: UPDATE Queries (3 Marks)

1. Update Paras's city to Chandigarh.
2. Increase Data Science fees to 30000.

Question 9: DELETE Queries (3 Marks)

1. Delete student whose student_id is 3.
2. Delete enrollment whose enrollment_id is 2.

Question 10: Constraint Verification (3 Marks)

Perform the following tests:

1. Try inserting a duplicate email.
 2. Try inserting a duplicate course name.
 3. Observe and explain the error.
-

Question 11: DROP Statements (3 Marks)

Write SQL commands to:

1. Drop the enrollments table.
 2. Drop the courses table.
 3. Drop the students table.
-

Bonus Question (Optional - 5 Marks)

Write a query to display:

- Student Name
- Course Name
- Enrollment Date

using JOIN.
