

AFTAB ALAM

AI/ML Engineer — Generative AI Engineer — Python & Automation Developer

+91-9721839101 — aftabalamkhan8932@gmail.com — aftab-alam — Coder-786hub

Summary

AI/ML Engineer and Generative AI Specialist with expertise in Python, Machine Learning, Deep Learning, NLP, Large Language Models (LLMs), RAG architectures, Computer Vision, and end-to-end workflow automation (n8n). Experienced in designing, training, deploying, and optimizing intelligent applications using FastAPI, LangChain, LangGraph, TensorFlow, and Scikit-Learn. Passionate about constructing scalable AI systems across document intelligence, automated workflows, predictive analytics, and enterprise intelligence solutions.

Technical Skills

Languages & Core: Python, SQL, REST APIs, Object-Oriented Programming (OOP)

AI / ML / GenAI: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, LLMs, Transformers, RAG, Prompt Engineering, LangChain, LangGraph, CrewAI

Libraries & Frameworks: TensorFlow, Keras, PyTorch, Scikit-Learn, OpenCV, Hugging Face, NumPy, Pandas, Matplotlib, Seaborn, FastAPI, Flask, Django, Streamlit

Databases & Vector Search: MySQL, PostgreSQL, MongoDB, FAISS, ChromaDB

Tools & Platforms: Git, GitHub, Docker, n8n Automation, Power BI, Tableau, Jupyter Notebook, Google Colab

Experience

- Sukrala IT Services Pvt. Ltd.** Mar 2026 – Present
Data Science /AI/ML Trainer
 - Delivered hands-on industry training covering Python, Machine Learning, Deep Learning, NLP, Generative AI, and Data Analytics.
 - Mentored developers and students on building end-to-end LLM applications, RAG pipelines, and automated workflow systems.
 - Designed project-based learning curriculums integrating modern tools like LangChain, FastAPI, n8n, and Power BI.
- ASB Academy** Jun 2025 – Feb 2026
Assistant Faculty
 - Conducted structured training programs focused on Python programming, Data Science, and Machine Learning algorithms.
 - Guided students through real-world AI and Data Analytics projects, model evaluation, and deployment strategies.
- Excellence Technology** Jan 2024 – Feb 2025
AI/ML /DS/DA Trainer & Intern
 - Trained students and professionals on Python development, Data Science, Data Visualization, and ML pipeline creation.
 - Developed interactive assignments, hands-on lab sessions, and practical capstone projects for AI aspirants.

Featured Projects

- Resume Intelligence System | Python, NLP, Scikit-Learn, Streamlit, FastAPI** 2026
 - Engineered an automated ATS Resume Screening System using Natural Language Processing and Machine Learning.
 - Implemented candidate ranking, skill extraction, and similarity scoring against target job descriptions.
- Document Intelligence Agent (RAG) | LangChain, LangGraph, FAISS, Gemini AI, Python** 2026
 - Architected a multi-agent document assistant using LangGraph and FAISS vector index for semantic document search.
 - Built source-grounded question-answering pipelines to eliminate hallucinations in complex document analysis.
- Text-to-SQL AI Agent | Python, Gemini API, MySQL, Google Sheets, n8n** 2025
 - Developed an AI agent converting natural language user queries directly into optimized SQL executions.
 - Integrated Google Sheets and n8n workflows for automated reporting and real-time business query visualization.
- Healthcare Prediction System | Python, Scikit-Learn, Explainable AI (LIME), Flask** 2025
 - Built a disease prediction engine utilizing supervised ML models with LIME integration for explainable diagnosis insights.

Education

- Mangalayatan University** Jul 2026 – Jul 2028
Master of Computer Applications (MCA) – Specialization in AI/ML
- JS University** Jun 2023 – Aug 2026
Bachelor of Computer Applications (BCA) – AI & Python Programming

Certifications

- Python 101 for Data Science** – IBM / Cognitive Class
- Python for Data Science** – IBM / Cognitive Class
- Artificial Intelligence and Machine Learning Specialization**
